

# Electrical safety solutions for healthcare facilities

## About Bender Inc.

Headquartered in Exton, PA, Bender Inc. stands as a market leader for electrical safety products. Bender is proud to be ISO 9001:2015 certified to guarantee the very best quality.

## Our Solutions

### Modular Isolated Power Panels (MIP, MIE, MIX, MIC, MID Series)

Monitors ungrounded power systems and protects against electrical shock, keeping patients and staff free from harm while maintaining uptime.

### Line Isolation Monitor (LIM2010)

Monitors isolated power system and displays the total system hazard current.

### Ground-Fault Location System (EDS441)

Locates ground faults on isolated power systems and provides exact circuit detection, improves safety.

### Current Monitoring System (CMS460 & STW3)

Circuit current monitoring for isolated power systems and eliminates risk of unexpected loss of power.

### Communications Gateway (COM465IP)

Gateway for Bender devices to Ethernet-TCP/IP networks, and allows panels to communicate with remote panels and building management systems (BMS).

### Monitoring and Control Station (CP9\* Series)

Human Machine Interface (HMI) that allows the connection of Bender and third-party devices.

### Remote Indicator (MK2000 Series)

Visual and audible indication of line isolation monitor (LIM) status offering an easy-to-clean front foil and remote test button.

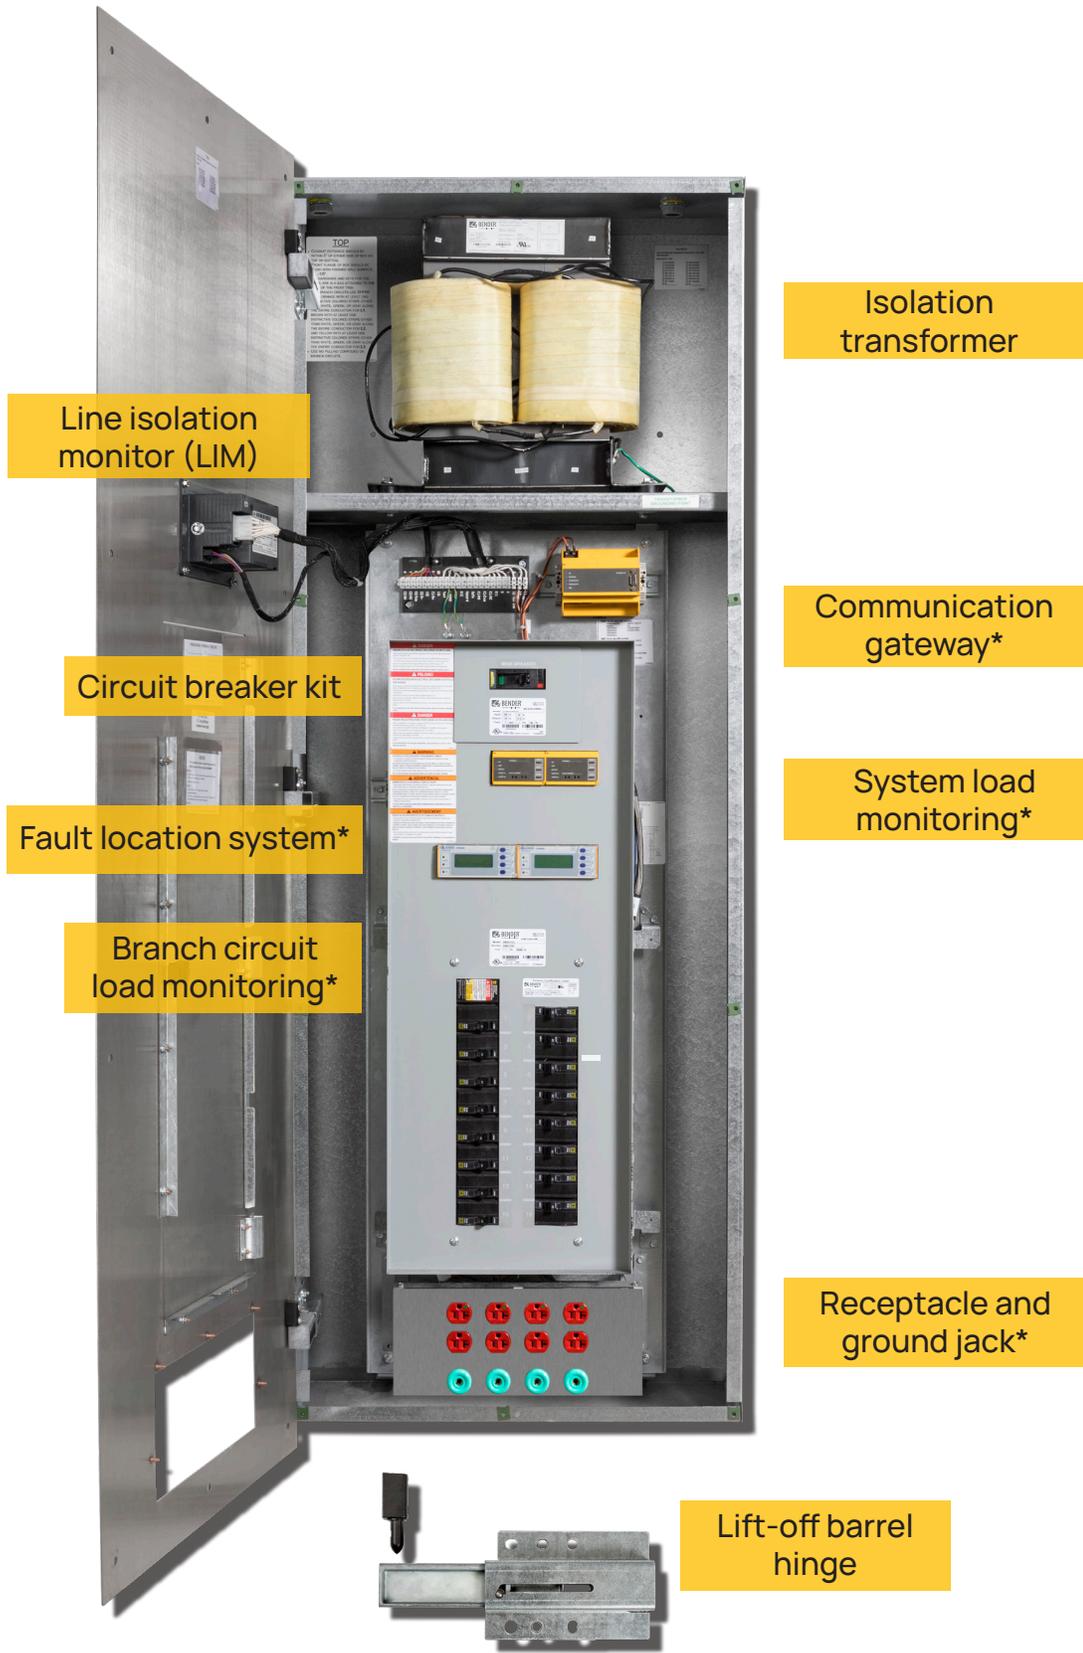

### Healthcare Field Services

Commissioning and testing that maintains and retrofits equipment from any manufacturer.

# Bender isolated power panel

Modular design for quick and easy field upgrades, industry-leading, 5-year limited warranty, USA designed and assembled.
